

MICRO COOL BAMBOO

SAX ALTMAN

FINE TAILORED CLOTHING

MICRO COOL BAMBOO

Bamboo Carbon Yarn is made from a 100% polyester fibre, in which bamboo carbon powder has been added during the polymerisation process to enhance the performance of the yarn for its lifetime.

The carbon content is limited, less than 1%, therefore the fabric made from it can be called 100% polyester.

Speedy Absorbency

Advanced water boundary, absorbed water concentration distribution.

Super Wicking

Moisture management. Moves moisture away from body. Fabric dries quickly. Lightweight, soft and breathable. Easy care. Added performance keeps you cool and comfortable.

Anti Microbial

Inhibits microbial growth.

Anti UV - UPF 400

HIGH-TECH

HIGH-COMFORT
